

Offline Production Operations Service - Necessary Maintenance #8795

NOvA KeepUp (Raw2Root, Calibration, Reconstruction) transition from jobsub_tools to jobsub_client

05/14/2015 12:14 PM - Paola Buitrago

Status:	New	Start date:	05/14/2015
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
The jobsub_client version v1_1_1 has been released and it supports proxies. The Nova KeepUp scripts should be modified and set in place so they use the new jobsub_client tool. The objective is to use the NOvA provided submission script for this purpose. This needs to be done for Raw2Root, Calibration and Reconstruction stages.
